

KNOWLEDGE 2 CONNECT

Knowledge 2 Connect is an initiative organised by the Knowledge Center for Health Ghent to supply substantive support to researchers. Next to giving customised information and exchanging best practices, the knowledge center want to create an opportunity for meeting and networking. The lunches are practice oriented and tailored to researchers who perform research in the area of medicine and health.

Practical information

During each session, a sandwich will be provided, thanks to our sponsors. Therefore, registration is necessary session. Accreditation for all Knowledge 2 Connect lunch meetings has been requested (section 6 'Ethics and Economics'). The Knowledge 2 Connect program is part of the Transferable Skills programme (Cluster Research & Valorisation) of the Doctoral Schools of Life Sciences and Medicine.
